3000	63	69	18

PRINCE COMPATIBLE PRODUCTS

- Smartfit CPVC Pipes • Easyfit UPVC Pipes • Ball Valves
- CPVC & UPVC Fittings • Solvents

ABOUT PRINCE PIPES

With a 30-year legacy and a network of 6 factories across India, we are known for manufacturing high quality piping systems for plumbing, bore-well, agriculture, sewage and industrial applications. This is why we are already a household name across India. And now, we are all set to delight you with our introductory range of overhead storage solutions - Prince STOREFIT water tanks.

A mark of identification of the genuine Prince Storefit tanks.
This mark is non-removable, unscratchable and in-mold on our tanks.
Look for the seal on top of the tank to identify original from counterfeit.

The quality you love in Prince Pipes, now in a water tank!

INTRODUCING

WHY PRINCE STOREFIT?

Experience gathered over three decades of operation. Expertise fine tuned by successfully solving a wide variety of challenges - across domestic, industrial and agricultural segments. Now, Prince Pipes brings its mastery of PVC to a new segment: STOREFIT water tanks. Let's see how every detail in STOREFIT has been meticulously planned to protect and secure the most precious element of our daily life: water.

FEATURES & BENEFITS

UV STABILIZATION

UV stabilized material prevents degradation and ensures no environmental stress, cracking, chalking or loss in the physical properties of the tank.

FOOD GRADE

Safe for drinking water applications.

BUILT STRONGER

Extra ribs for enhanced durability. Reduced bulging with full tank. Minimized chances of bursting under pressure.

EASY INSTALLATION

Provision of multiple plumbing inlets and outlets for the ease of connection.

THREADED LID

Enhances the life of cover. Keeps water free from dust and flies.

AIR VENTILATOR

Built-in ventilator allows water to breathe (to natural oxygen level) and stay fresh. They also help to avoid deformations.

UV PROTECTION COVER

Additional black cover below the lid to prevent entering of UV rays from the top opening of tank.

ANTIMICROBIAL

Inner layer added with silver based antimicrobial agent which prevents bacterial growth and keeps water fresh.

DESIGNED WITH 3-LAYER INSULATION

Outer white layer
For UV resistance

Insulated black middle layer

Prevents UV radiation which helps in maintaining lower water temperature than ambient temperature.

Inner food grade polymer layer

Prevents water contamination
